Classic, Deluxe & Premium Chinstraps

MORPHEUS - "THE GREEK GOD OF DREAMS"

Anti-Snore

Improves CPAP Compliance

Morpheus Classic Chinstrap

Morpheus Deluxe Chinstrap

Morpheus Premium Chinstrap

Morpheus Chinstraps are part of the CPAPology™ product line, helping to improve the compliance of sleep therapy. These chinstraps can be used as an anti-snore device, or in conjunction with CPAP therapies. Morpheus Chinstraps were developed to fill a need for a quality headgear at a reasonable cost. A significant amount of research was performed with homecare dealers and users in the designing of the Morpheus product line. This resulted in an optimal shape for superior comfort and stability. For our Morpheus Classic and Deluxe Chinstraps, neoprene material was chosen for its durability and flexibility, while resisting degradation. The Lycra trim provides a comfortable, high quality appearance, while assisting in maintaining the integrity and structure of the chin straps.

The Morpheus Premium was designed to provide a One-Size-Fits-All Chinstrap, while ensuring comfort, flexibility, and stability. The Premium also includes two optional straps for additional support. A polyester sandwich mesh was incorporated into the chin area on all three chinstraps to improve breathability and comfort. Industrial strength hook & loop fastener was chosen for durable and longer lasting attachment.

Breathable Chin Mesh

Industrial Strength Hook & Loop Fastener

FEATURES:

- Premium Quality
